SLC Airport Roadway: Getting Better at Every Turn

A significant detour to Terminal Drive exiting the Salt Lake City International Airport (SLC) is coming in mid-August.

Overnight on Thursday, August 15, crews will be re-directing the roadway so that at 5:00 a.m. on Friday, August 16, 2019, drivers will exit on a new roadway. The detour will take drivers between The New SLC parking garage and central terminal and passengers will be able to see the new airport progress.

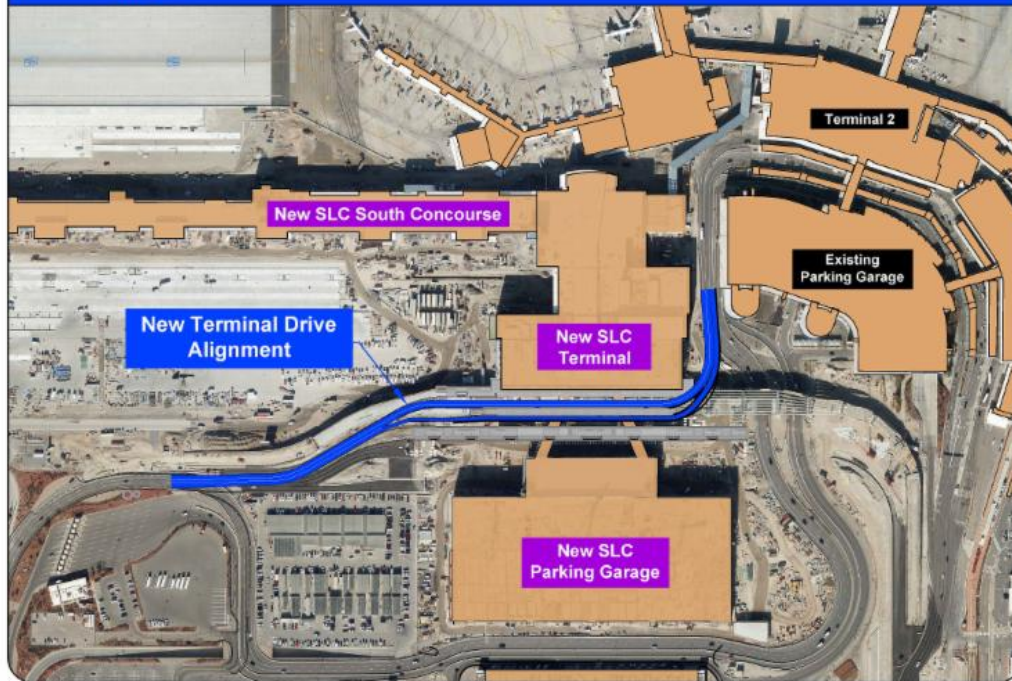

The road change is needed to give construction crews the space needed to install two helixes, which will be used by drivers to exit the new airport parking garage. The new roadway will be in place until September of 2020 when The New SLC is scheduled to open for business.

The road will take off one-third of a mile when exiting the airport. The airport asks drivers to observe the posted speed limit signs on the roadway and reminds those picking up to remain in the Park and Wait Lot until passengers are at the curb with their luggage.

For more information and a map detailing the change, go to www.slcairport.com

Effective Friday, August 16th New Terminal Drive Alignment
