

REPORT ALL WILDLIFE STRIKES

The FAA maintains a wildlife strike reporting system for pilots to report and document the effects of a wildlife strike. The reporting page can be found at <https://faa.gov/strikenew.aspx>.

Be prepared with the following information:

- Aircraft make and model
- Aircraft registration
- Date of incident
- Time of incident
- Airport, runway, or general location
- Details of flight
- Detail of damage
- Detail of damage cost

Please notify airport personnel of strikes that occur at any of the three Salt Lake City Department of Airports operated airports. Personnel are on hand at Salt Lake City International Airport and South Valley Regional Airport to respond and take remaining biological samples from the strike area. The samples are tested to verify which species was struck. The information obtained through sampling helps identify which species are creating problems and can help with remedial mitigation efforts.

ANGEL FLIGHT WEST HOLDS SANTA FLIGHT

The Angel Flight West Santa Flight was held on Friday, Dec. 14. South Valley Regional Airport was the primary launching point for the operation. Twenty-five aircraft delivered supplies to Enoch Elementary in Southern Utah.

Students from Ms. Rieff's Enoch Elementary class greet Santa at the Cedar City Airport.

SOUTH VALLEY REGIONAL FBO IS CLOSED NEW YEAR'S DAY

GATE CODES TO CHANGE FEBRUARY 15

Gate codes at South Valley Regional Airport and Tooele Valley Airport will change on Feb. 15. Information regarding the new gate codes will be disseminated with the February 2019 newsletter.

TAC-AIR HOSTS UTAH VALLEY UNIVERSITY FLIGHT STUDENTS

TAC-AIR Salt Lake City hosted a group of professional flight students from Utah Valley University to see potential careers in general aviation. The students learned about the numerous flight career options that exist outside of commercial operations, including corporate aviation, aeromedical aviation and FBO operations.
