

GENERAL AVIATION AIRPORT SNOW REMOVAL

Winter weather will soon be upon us! Here are a few reminders about snow removal in the General Aviation areas:

- ✈ SLC crews will plow eastside taxiways and taxi lanes after commercial runways, taxiways and aprons are cleared.
- ✈ Fixed Base Operators are required to clear their own aprons to the edge of their lease lines prior to airport crews plowing taxiways
- ✈ Taxiway A and the runway at South Valley Regional Airport (U42) will normally be cleared and de-iced by 9:00 a.m. after a snow event. Snow crews will work throughout the day to keep the taxi lanes and common ramps usable.
- ✈ Tooele Valley Airport (TVY) will not be cleared until SLC crews have completed snow removal operations at Salt Lake City International Airport.
- ✈ Snow crews will normally clear snow from GA hangar fronts to within four feet of hangar entrances. Tenants are responsible for clearing remaining snow.
