THE NEW SLC PROGRESS TOUR OF PHASE 2 CONSTRUCTION

What: For the past 24 months, construction teams have been working diligently to build Phase 2 of The New SLC Airport Redevelopment Program (ARP).

Come see the progress that has been made on Concourse A-east construction and learn what will be opening in May 2023. In addition to the tour, the airport will be announcing the 19 new restaurants and retail shops that have been selected for Phase 2.

Plus, as part of Safety Week 2022, OSHA will recognize the ARP for the outstanding efforts of ARP employers and employees who have achieved exemplary occupational safety and health while working on the project.

When: Tuesday, May 3 at 9:30 a.m. meet in the Media Parking Lot where a shuttle will drive everyone onto the construction site for a 10 a.m. tour. We will plan to drop everyone off at the lot by 11:30 a.m.
