

The New SLC Email Alert

Sept. 24, 2020

First Phase of The New SLC Now Open

At 4:00 a.m. on September 15, the Salt Lake City Department of Airports (SLCDA) turned the key and opened the first phase of The New SLC Airport. As the lights dimmed on the existing airport, the lights brightened on a new parking garage, gateway center, central terminal and Concourse A-west. Delta Air Lines will occupy the 25 gates in Concourse A-west, including six international gates. In six weeks--on Oct. 27--Concourse B-west will open with 20 gates for Alaska, American, Frontier, JetBlue, Southwest and United airlines.

"This day has been years in the making," said Bill Wyatt, SLCDA executive director, "To say we are excited to be here today is an understatement. After six years of construction and many more years of planning, we are proud to open the first new U.S. hub airport in the 21st Century," Wyatt added.

The need to build a new SLC airport became apparent as passenger numbers grew and facilities became outdated. Prior to the pandemic, SLC recorded more than 26 million passengers in 2019, in an airport that was built for 10 million passengers.

Salt Lake City Mayor Erin Mendenhall, Airport Executive Director Bill Wyatt and Delta Air Lines officials cut the ribbon on the first departure Sept. 15. Flight #2020 took off at 6 a.m. to Atlanta.

The advantages of building an entirely new airport is that the architects were able to design for the future to create a more efficient and more sustainable facility. The new concourses are designed in a parallel configuration-- compared to the current pier layout--which will eliminate aircraft bottlenecks and idling, so airlines are able to get their planes to the gate and back in the air quicker.

SLCDA also built the new facilities with LEED Gold Certification from the U.S. Green Building Council in mind. The airport achieved this certification through a variety of ways, such as converting all airline ground service equipment to electric. Plus, the use of natural light will also help to achieve the airport's energy goals.

Additional highlights of the \$4.1 billion airport include the following:

- * A two-level roadway system with an elevated road designated for departures.
- * A parking garage with 3,600 parking stalls and a camera-based sensor system that uses lights to indicate where open spots are located. Plus, 56 places to charge electronic vehicles.
- * The Gateway, which houses car rental counters and quick-check airline ticket counters.
- * 16 security screening lanes with automatic return bins to aid in touchless travel.
- * 45 concessions--21 restaurants and 24 stores--in the Terminal and Concourse A-west--all with street pricing. (On opening day, there were 9 restaurants and 12 stores that opened in Concourse A-west.)
- * Electronic plug-ins at each seat and in open seating areas throughout the airport.
- * 7 miles of luggage conveyor belts to accommodate oversized bags, such as skis, snowboards, bike boxes and golf clubs.
- * Aircraft gates that employ the SAFEGATE Aircraft Docking System to provide pilots active guidance to support safe, efficient and precise automated aircraft parking during all operating conditions.
- * 24 restrooms with private lactation rooms, deep bathroom stalls and unique Whimsy Wall artwork. Passengers are never more than 150 feet away from the next restroom facility.
- * The Greeting Room--a large area that can accommodate 300 to 400 individuals--where friends, families and others can wait to pick up passengers

once physical distancing measures are no longer in place.

* Large-scale art installations by artist Gordon Huether--The Canyon, The Falls, The Plates and Benches--to represent Utah's natural beauty and provide a sense of place.

The New SLC will provide passengers with an entirely new experience compared to the previous airport from curb to gate. For more information, [click here](#).

The New SLC Phone App

Wondering how to navigate The New SLC Airport? Download the phone app available by searching SLC International on Google Play or Apple App Store. The airport app now has a map function that shows the location of everything from restaurants and shops to pet relief areas, ticket counters and airline gates. Passengers can search the app to find directions on how to get from point A to point B and everywhere in between!

Concourse B-West Set to Open October 27

On Oct. 27, Concourse B-west is scheduled to open with 20 gates for Alaska, American, Frontier, JetBlue, Southwest and United airlines. Concourse B will be accessible via the Mid-Concourse Tunnel, which is located between gates 13 and 15 in Concourse A-west. A preview of Concourse B will be coming out in the next edition of The New SLC newsletter.
