The New SLC Airport Phase 3 Unveiled

Phase 3 of The New SLC Redevelopment Program was officially unveiled on Tuesday, Oct. 22. Aside from five additional Delta Air Lines' gates and 12 concessions, the latest phase includes four new art installations that celebrate and recognize Utah's beauty and natural history. Three art elements are by Artist Gordon Huether and include The River Tunnel, connecting A and B concourses, The Canyon 2.0 and the Northern Light oculus in Concourse B Plaza. The World Map that once graced the floor of Terminal 1 in the original airport and "Ally the Allosaurus," a replica fossil skeleton of *Allosaurus fragilis*— Utah's state fossil— donated by the Natural History Museum of Utah, are also located in the Concourse B Plaza. Delta Air Lines Opens First Pilot Training Facility Outside of Atlanta

Delta Air Lines opened a new, \$50 million, 50,000-square-foot, state-of-the-art pilot training facility near the Salt Lake City International Airport on Dec. 4. The event was attended by Delta leaders, Salt Lake City-based employees, local government officials and community members. With thousands of Delta pilots routed into the city for extended stays during training cycles throughout the year, the facility will also support the local SLC economy.

Mayor Erin Mendenhall joined Governor Spencer Cox and Delta CEO Ed Bastian at the ribbon cutting for the new Delta Training Center.
