

WINTER HANGAR REQUIREMENTS AND PROHIBITIONS

Winter is upon us and Salt Lake City Department of Airports (SLCDA) would like to remind tenants of the required and prohibited operations when it comes to SLCDA's hangars.

- ✈ Refueling aircraft in hangars, including shade hangars, is prohibited. Tenants wishing to self-fuel their aircraft must obtain a self-fuel permit from airport operations. Aircraft can be no closer than 25 feet to their hangar when fueling.
- ✈ Starting aircraft in and/or taxiing into and out of hangars is prohibited. Aircraft need to be pushed out of hangars to the taxi-lane centerline prior to engine start.
- ✈ Power run-ups are only authorized in designated run-up areas near the ends of each runway.
- ✈ Enclosed T-hangars are required to have fully charged and properly inspected fire extinguishers accessible to the front hangar door at all times. Fire extinguishers must display inspection stickers from a competent authority authorized to perform inspections under Utah code.
- ✈ Only electric engine heaters are authorized for use when placed at least 16 inches above the hangar floor and are electrically connected with a minimum of a 12-gauge extension cord.
- ✈ Open flame space heaters are prohibited at all times. Electric space heaters can be used when fully attended and when connected to a power source with a minimum of a 12-gauge extension cord.
- ✈ Vehicles need to be parked inside the tenants' leased hangar or in the parking lot while the tenant is out flying.
- ✈ Only non-corrosive ice melt can be used at the airport.

Contact General Aviation Manager Dave Teggins at dave.teggins@slcgov.com with any questions concerning hangar prohibitions.

SANTA FLIGHT

Angel Flight-West has scheduled its annual Santa Flight for Dec. 12. The Santa Flight, which delivers supplies to an underprivileged school in the state of Utah, will depart from South Valley Regional Airport (SVRA) to Cedar City Regional Airport (CDC), where Enoch Elementary kids will greet Santa as he arrives. A reception will be held in a heated hangar at CDC. Flights and times are subject to change depending on weather conditions.

REMINDER

Please remember to fly neighborly and avoid prolonged or unnecessary flight over houses.

SLCDA NEWSLETTER

If you would like to receive the Salt Lake City Department of Airport's monthly General Aviation Newsletter by email, send your email address to dave.teggins@slcgov.com.

SKYDIVE UTAH CELEBRATES RECORD BREAKING SEASON

SKYDIVE Utah performed more than 17,000 jumps in the 2018 season, including over 3,000 first time tandem jumps. The jump season typically runs from April to early November each season. SKYDIVE Utah is based at the Tooele Valley Airport and provides skydiving experiences for novice and experienced jumpers. Jumpers ride in a King Air and are taken to 13,000 feet. Tandem jumpers free-fall for approximately one minute at a top speed of 125 mph. About 30,000 people, including jumpers and friends, visit the airport during jump season.

Westminster student Alex Clark and tandem instructor Zach Starr board the jump aircraft at Tooele Valley Airport.

SOUTH VALLEY FBO TO CLOSE FOR THE HOLIDAYS

The South Valley Regional Airport FBO will be closed on Christmas and New Year's Day. Self-service 100LL and Jet A will be available for those needing fuel.
