SVRA Update | New LED Directional Signs

South Valley Regional Airport (SVRA) recently installed 15 LED directional signs throughout the airport campus. The addition is part of a broader initiative to improve the overall experience for visitors, pilots and airport staff to make it easier for everyone to navigate the campus efficiently.

LED technology ensures that the signs are highly visible during day and night with bright, energy-efficient lights to reduce power consumption, while improving safety and accessibility. LED signs are not only cost effective but are designed to withstand harsh weather conditions, which ensure they remain functional and readable throughout the year.

SVRA continues to invest in upgrades that contribute to a more user-friendly and sustainable airport experience. The addition of the directional signs is one example of how the airport is continually evolving to meet the needs of the growing airport community.

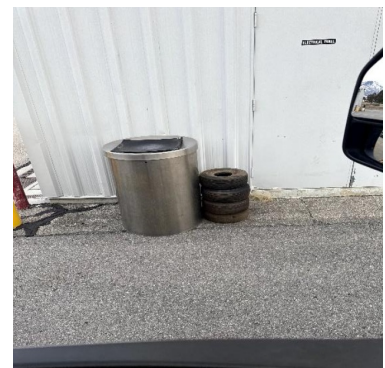

Newly installed LED directional sign at SVRA

Improving Cleanliness and Safety

Keeping SVRA's property clean and safe is a shared responsibility for all airport tenants. A reminder to remain diligent when disposing of trash and debris in designated containers.

It is critical that each tenant manually carry trash bags from their offices or hangars to the blue dumpster located near the MX building. This reduces the risk of Foreign Object Debris (FOD) on the runway and taxiways. FOD poses a serious threat to aircraft operations and the overall safety of the airport.

Improperly discarded tires at SVRA

Tires, oil and other hazardous materials should never be placed in regular trash receptacles or the blue dumpster. These items require special handling due to environmental regulations and safety concerns. Improper disposal of these materials is a serious violation of airport policies and can have detrimental effects on both the environment and airport operations.

Failure to keep tenant areas free of debris and trash--or to properly dispose of items such as tires, oil or hazardous materials--will result in a violation notice issued to the responsible party. Tenants will have 30 days from the notice to correct the issue. If the problem persists and the necessary actions are not taken to ensure proper disposal and cleanliness, the airport reserves the right to

cancel the tenant's lease.

The airport and its tenants must work together to keep the airport clean, safe and in compliance with all regulations. SLCDCA is grateful for the cooperation of all tenants.

Upcoming Events & News

February 14-16

Buckeye Air Fair and AOPA Fly-In.

The 2025 Air Fair will feature an airshow, vintage and military aircraft, action-packed demonstrations, Aviation Academy exhibitions and more. Buckeye, Arizona, 3000 South Palo Verde Road. For more information, contact airfair@buckeyeaz.gov | (623) 887-3316. <https://www.buckeyeaz.gov/community/residents/events-in-buckeye/buckeye-air-fair>

February 15 at 12 p.m.

FAASTeam Meeting: IAC Chapter 139 Spring Safety Open House

This event will cover basic safety aspects of aerobatic flight and failure points in the new 2025 Known Aerobatic Sequences. Provo Airport, 3393 Mike Jense Pkwy, Provo, Utah. Hangar 19-12. Parking located in gravel lot on the north side of Mike Jense Pkwy, east of S Aviation Drive. Contact Sadie at (385) 685-8565 to be escorted into hangar 19-12.

February 18 at 6 p.m.

FAASTeam Meeting: Fly to KVGT and Sharpen Your Safety Planning

Discussion will cover regulations, airspace and radio communication regarding KVGT. This trip will require pre-planning before the seminar. The route will be to Lake Mead and the Cortez 1 arrival and then direct back to KSGU. Gated community at 625 E. Siena Dr. Washington, Utah. Call Jennifer Carroll at (435) 767-8795 at gate. Parking is limited and carpooling is recommended.

March 7 at 11 a.m.

FAASTeam Meeting: Dynamic Regulatory System (DRS) and Service Difficulty Reporting System (SDRS) Websites

Discussion about DRS and SDRS. FLT Academy, 1652 W. 1940 S., Hanger 58. Woods Cross, Utah.

Points of Contact

General aviation operations, facilities maintenance, SLCDCA GA newsletter, airfield and SLC

Title 16 questions: Kevin Thornock, General Aviation Manager, (801) 531-4777 or

kevin.thornock@slc.gov

FBO Operations, general aviation operations, facilities maintenance, airfield and SLC Title 16

questions: Sam Allen, FBO Manager, (801) 561-7531 or samuel.allen@slc.gov

Hangar lease and repair questions: Michelle Andreadakis Rudd, Airport Property Specialist,

(801) 575-2957 or michelle.rudd@slc.gov
