## Pavement Preservation and Tie-Down Project Planned

South Valley Regional Airport (KSVR) is preparing for a new infrastructure improvement project focused on preserving airport pavement and improving aircraft tie-down areas. This project is part of ongoing efforts to maintain a safe and efficient airport for the community.

The pavement preservation work will include sealing, patching and repainting various paved surfaces around the airport apron. These improvements are essential for extending the life of existing pavement and ensuring a safer environment for aircraft operations.

*Planned construction area at KSVR*

In addition to the pavement improvements, designated tie-down areas will be upgraded to improve usability and overall experience. These enhancements will support current needs and provide added convenience for those using the airport.

Construction is expected to begin at the end of May and will proceed in phases to minimize disruptions to airport operations. Notices to Air Mission (NOTAMs) will be issued in advance of any temporary closures or changes in access. The airport team will work closely with tenants and users throughout the process to ensure a smooth transition.

All pilots and tenants are encouraged to stay informed by checking airport updates and preparing for brief interruptions in tie-down availability or access to select taxiways. The airport team will continue to provide updates as the project progresses.

Please reach out to airport staff with any questions or specific operational needs during construction.

---

## Upcoming Events & News

**May 8 at 6 p.m.**

**FAAS Team Meeting: A Standardized Method for Conduction Instrument Approaches**

Topics include transitioning effectively from enroute to the terminal environment, identifying critical

tasks that must be completed before final approach and preparing mentally for the descent to DA/MDA. Meeting will take place at SLC Airport Training and Activities Center (ATAC), 1911 North 2200 West, Salt Lake City. (The building is located at the north end of Salt Lake City International Airport, directly across from Red Rock Medical Supply.) Please enter through the vehicle gate and park in the lot on the south side of the facility. The main entrance is located on the south side of the building.

### **May 13-15**

#### **Aerospace and Defense Accelerate Wasatch 2025**

Connect with industry leaders, explore cutting-edge technologies and gain valuable insights into the future of aerospace and defense. The event will take place at Union Station, 2501 Wall Avenue, Ogden. [Click here for more information and to reserve tickets.](#)

### **May 29 at 6 p.m.**

#### **FAASTeam Meeting: Return to Service**

Seminar will be held in the Provo Terminal Building, 1331 Sky Way, Provo. Proceed up the stairs to the large conference room. For more information, contact Mark Chmielewski at (912) 223-0421, [mark.chmielewski@gmail.com](mailto:mark.chmielewski@gmail.com)

### **May 31**

#### **Fun Fly Poker Run EAA-1373**

A Fun Fly event is planned to gather regional aviation enthusiasts. Registration at KAJZ, 8 a.m. to 11 a.m. Early registration recommended. Hamburgers and hot dogs available upon completion of Poker Run at KAJZ. Delta-Blake Airfield, 870 1575 Road, Delta, Colorado. For information and early registration, contact Bruce Thieking at (775) 397-3393 [bruce@bthieking.com](mailto:bruce@bthieking.com)
