U42 Runway Scheduled to Close on July 10 Between 07:00L and 19:00L

South Valley Regional Airport runway 16/34 will close between 07:00L and 19:00L on Monday, July 10 for application of permanent paint markings.

The current markings on the runway were applied with a temporary paint. Asphalt emits gases for the first 30 days after yellow paint has been laid. The July 10 application will be with a high visibility paint that will last longer.

This is the last component of the runway 16/34 overlay and taxiway re-design project. The $3 million project involved laying 20,000 tons of asphalt material, using 4,500 cubic yards of engineered fill material and applying 170,000 square feet of paint.

Please remember construction can be delayed by weather or material issues. Tenants are encouraged to monitor NOTAMs for the most current and up to date information concerning construction impacts.

PLEASE CHECKS NOTAMS PRIOR
TO DEPARTING FOR U42.

Thank you for your patience and understanding during this improvement project.

Hangar Inspections Completed in June

Hangar inspections were completed at Salt Lake International Airport (SLC) and South Valley Regional Airport (U42) in June. Hangars were inspected by representatives of Airport Operations and Airport Properties.

Improperly inspected or out of date fire extinguishers were the most common problem. Airport lease requirements dictate that each hangar be equipped with at least a 20BC fire extinguisher, which has to be inspected by a state certified fire extinguisher inspector each year. Those violating the requirement will receive a notice to comply.

Banner Towing at South Valley Regional Between July 15-17

Use caution between July 15 and 17 when banner towing operations will be underway at South Valley Regional Airport.

Banner operations will commence at 18:00L and end at 20:00L each evening. Banner pick-up and drop-off will occur in the field east of runway 16/34.

Notice

SLC Runway 14/32 will close July 17 for 90 days for a runway overlay project.

SLCDA GA News Electronic Option

To receive the Salt Lake City Department of Airport's monthly General Aviation newsletter by email, send your email address to: dave.teggins@slcgov.com.

Taxi Lane Change at KSLC

The taxi lane that runs east from spot 26 and south of hangar rows 6 through 9, will be adjusted during the upcoming east apron asphalt project. The centerline will be moved north of its present location. This change leaves ample room for GA hangar tenants to safely reach their hangar. The change will accommodate a transient aircraft parking area to the south of the taxi lane.

Asphalt Projects at KSLC

This summer, three separate asphalt projects are coming to Salt Lake International. Atlantic Aviation, Salt Lake City Department of Airports and TAC-AIR are planning asphalt ramp and taxi lane work. Tenants are reminded to check NOTAMS prior to operating to ensure they have the most current information. In addition, tenants are encouraged to report any safety concerns immediately to the on-duty Airport Operations Manager at 801-575-2460 or to the General Aviation Manager at 801-556-4082.

Helpful Points of Contact

General aviation operations, facilities maintenance, SLCDA GA newsletter, airfield and SLC Title 16 questions: Dave Teggins, SLCDA General Aviation Manager, (801) 556-4082 or dave.teggins@slcgov.com.

Hangar lease and repair questions: Phil Bevan, SLCDA Property Management Specialist, (801) 575-2957 or phil.bevan@slcgov.com.

Aviation security questions: Kristian Wade, SLCDA Airport Operations Manager/Security, (801) 575-2401. Gate access problems: Airport Control Center at (801) 575-2401.

Emergencies: SLCIA, (801) 575-2911; TVY or U42, 911 first, then (801) 575-2911.

For additional GA information, call the GA Hotline: (801) 575-2443.
