

All,

Just a friendly reminder that starting on 12/01/2022 Yellow Cab will officially take over the On Demand services and operate from 9A. In addition, they will operate from the NE corner of the staging area. Please use other designated areas in the staging area to operate from. Lastly, the QLESS system that you register on for rides will not be monitored. The system will remain active until the QLESS vendor disables the SLC account, so you may continue to see that the system is live throughout the day. Please do not log into QLESS, as SP will no longer summon rides from this software.

As always, if you have any questions, please let us know.

Thank you,
