

All,

The GT Staging Lot restrooms are officially open. We will keep the portable lav's in place while the contractor finishes the touch ups on the permanent restrooms. We anticipate to remove the portable's next week Please note that the restrooms are unisex and are controlled via badge swipes. Do not open the restroom doors for any individual, as that will constitute a violation against your badge. If this occurs, your badge will be suspended, badge points will be assessed and placed on your badge record, and you will have to not only pay a reinstatement fee but go through retraining. In addition, please treat the restrooms with care. If damage is reported, we will investigate via badge swipes and cameras in the area. The last individual/company to use may be liable for repair costs. If damage or inoperative equipment is found, please report immediately. You can call the Control Center 24/7 to report issues at 801-575-2401.

Thank you
